SUMMARY

Versatile Marketing Professional with over a decade of success enhancing user journeys and driving growth across digital, brand, and product-focused initiatives. A cross-functional leader with extensive experience in Go-to-Market (GTM) strategy, having successfully spearheaded the launch of e-commerce platforms and managed integrated marketing programs for global organizations. Adept at bridging the gap between technical product features and customer needs through UX Research, Competitive Intelligence, and Positioning. Proven ability to leverage data-driven insights to drive product adoption, automate complex processes, and elevate the overall brand experience for both employees and customers.

PROFESSIONAL EXPERIENCE

Digital Enablement Manager, *Lenze Americas*

January 2025 - Present

- Spearheaded the GTM and product strategy for a B2B e-commerce relaunch by conducting primary user research and rapid prototyping to define feature requirements, resulting in a roadmap optimized for customer retention.
- Identified and eliminated operational bottlenecks by engineering custom no-code automation solutions (Power Platform) that streamlined CX workflows, reducing response times by 12% and increasing departmental productivity by 23%.
- Architected an automated “Voice of the Customer” (VoC) program featuring “survey quarantine” logic to protect the customer experience and a Power BI dashboard that triggers real-time management intervention for at-risk accounts.
- Synthesized user pain points into actionable product requirements, collaborating with cross-functional Product and Design teams to translate research findings into high-impact features and value-based marketing messaging.
- Accelerated digital transformation by researching and deploying emerging technologies, including AI-driven automation, to improve data accuracy and elevate the end-to-end customer journey.

Digital Experience Manager, *Lenze Americas*

March 2022 - January 2025

- Orchestrated the design and development of digital sales enablement tools for a product series with over 800 variants, simplifying an 18-character nomenclature into an intuitive selection interface to streamline the distributor purchasing journey.
- Partnered with Product Managers and Channel Development teams to produce an annual series of 6–7 educational webinars, translating technical product specifications into value-based content for global distributor networks.
- Architected and optimized an indirect channel e-commerce strategy in collaboration with key stakeholders to drive digital sales growth.
- Visualized concepts to represent user journeys and information models to aid in the development of the digital customer experience strategy and inform design decisions.
